

Ministry of Education and Science of Khabarovsk Krai
Regional state autonomous professional educational institution
«The Governor's Aircraft Building College in Komsomolsk-on-Amur
(Interregional Competence Center)»

Theme: English language in specialty «Technical operation and maintenance of robotic production»

Done by:
Karnaukhov Leonid
Work supervisor :
Turgeneva N.K.

Purpose of the study:

To explain the importance of the English language in the specialty «Technical operation and maintenance of robotic production.»

Objectives of the study:

1. The meaning of the specialty
2. Problems with personnel in the Far East
3. Personal experience
4. Conclusion

The meaning of the specialty:

Working with robotics,
manipulators, automated
machines and maintaining them
in working condition.

Problems with personnel in the Far East

A lot of equipment, but the lack of specialists.

Personal experience

Participation in World skills Russia 2018

Conclusion

English is an integral part of the technical operation and maintenance of robotic production.
